

TempTale[®]4

Probeless Dry Ice Monitor

Complete Control of Your Dry Ice Environment

Millions depend on the integrity of your product. Sensitech's mission is to ensure that integrity.

Sensitech, the world's leading provider of cold chain information and analysis solutions, is the first and only manufacturer to offer a self-contained, highly reliable, probeless dry ice monitor with LCD display capability. Whether you are shipping pharmaceuticals, chemicals, blood samples or vaccines in a dry ice environment, the TT4 Probeless Dry Ice monitor is your temperature control solution.

- Designed to accurately record, monitor and archive temperature data of mission critical dry ice shipments
- Operates without external probes or wiring
- Monitor can be placed into the dry ice environment directly in contact with product
- Monitors temperature environments as low as -80°C
- Factory programmed high and low alarm settings to trigger single, continuous or cumulative time-out-of-range events

Probeless Dry Ice Monitor

TT4 Dry Ice Monitor Specifications

Temperature Measurement Range	-80°C to 30°C (-112°F to 86°F)
Temperature Accuracy Range	±1.7°C from -80°C to 30°C (±3°F from -112°F to 86°F)
Temperature Resolution	0.1°F/C Over Full Temperature Measurement Range
Memory Type	Non-volatile 2K or 16K EEPROM options
Memory Capacity	Maximum 1,920 or 16,000 data points
Data Sampling Interval	Variable from 10 seconds up to 15 minutes
LCD Display	Displays Max/Min Temperatures and Time-Out-of-Range Data
Typical Dimensions	3.6" L x 2.0" W x 1.2" H (9.2cm L x 5.1cm W x 3.0cm H)
Weight	3.8 ounces (107.0 grams) approximate
Battery Life	1-year run life
Start-Up Options	Manual push button or automatic launch option
Start-Up Delay	Programmable from 0 seconds up to 10 days
Quality Assurance Certifications	CE Mark by TUV; Traceable to N.I.S.T.
Maximum Recording Period	30 days
Software/Computer Interface	TempTale Manager Desktop Software; Interface Plus Reader
Monitor Recording Options	Single Use Only

Operating the monitor outside of published specifications can result in damage to the monitor.

How a TT4 Probeless Dry Ice Monitor Works

As the world's leading provider of cold chain visibility solutions, Sensitech enables global leaders in Food and Pharmaceuticals to track and monitor assets across the supply chain to protect the integrity of temperature-sensitive products. Sensitech is a business unit of Carrier Corp., the world's largest provider of heating, air conditioning and refrigeration solutions with operations in 172 countries. Sensitech is an ISO 9001:2000 company and is based in Beverly, Massachusetts, with offices in Amsterdam, Calgary, Melbourne, Redmond and Santiago as well as service and distribution offices around the world.
