

SensiWatch™ Insights

The power of supply chain risk management is in your hands. Monitor in-transit shipment risk in real time using IoT sensors with exception alerts and corrective-action escalation notifications.

SensiWatch™ Insights is a real-time, shipment-management tool optimized for mobile usage. This mobile app enables real-time access to shipment data, alerts, and escalations in a simple dashboard-style user interface. Immediately identify potential risks as they happen such as extended stops, delays, travelling in high-risk areas, illogical route deviations, meeting-a-milestone, and more. Empower your operational team to make real-time supply chain adjustments as risks are identified and addressed.

SensiWatch Insights leverages IoT sensors and configurable business rules to proactively intercept and address issues before they become critical. Assess map views of shipment location in real-time.

- Evaluate supply chain risk dynamically based on configurable risk ratings as a shipment moves from origin to destination
- Gain support from Sensitech's direct global support 24x7x365
- Access shipment status based on milestones, locations, environmental conditions and risk events
- Configure exception-based alerts per customer need; i.e., delayed shipment, extended stop, delayed at border, trailer opened during transit, off route, temperature excursion, stopped in high crime areas, etc
- View real-time dashboard of shipments performance and risk level
- Measure the performance of supply chain logistics partners through individual shipping lanes and regional metrics

Sensitech Inc. is focused on delivering supply chain visibility solutions that track, monitor and protect products for global leaders in the food, life sciences, consumer goods, and industrial markets. Our solutions are focused in three key areas: quality and compliance, supply chain security, and logistics performance management. Quality and compliance solutions address temperature-sensitive, complex supply chains focused on delivering the highest quality possible, while our supply chain security solutions help to mitigate risks associated with theft, diversion and chain of custody. Sensitech's logistics performance solutions deliver origin-to-destination, real-time transparency to any in-transit journey. Sensitech Inc. is an ISO 9001:2008 company, headquartered in Beverly, Mass., with more than 35 sales, service and distribution locations around the world. Sensitech is a part of UTC Climate, Controls & Security, a unit of United Technologies Corp., a leading provider to the aerospace and building systems industries worldwide.
