

# TempTale® GEO Ultra

## TempTale GEO Ultra Extended

### Real-time Visibility with Validated Temperature Monitoring

The TempTale® GEO Ultra Extended is a global, real-time IoT device that delivers end-to-end real-time shipment location with validated temperature monitoring, key to logistics and quality departments. This device is designed for longer, extended trips for ocean, air and multimodal shipments. Sensitech is helping customers digitize their supply chain, prevent the loss of shipments with in-transit visibility and alerts, automate and increase compliance, and speed up product release.

The TempTale GEO Ultra Extended provides an early warning signal enabling action in the event of a temperature spike, with visibility into delays, proximity, and rerouting; and alerting of a trailer door or container being opened. Data for the entire shipment automatically flows to the system-of-record, easing the burden of receivers and increasing compliance.

### Key Features and Benefits

- Real-time location and validated temperature visibility  
-30°C to +55°C
- Provides real-time temperature, light and location notifications via secure, web-based software application, to prevent and manage risks due to temperature excursions, delays, rerouting, and more
- Validated time and temperature data flows automatically to ColdStream® Select.
- LTE Cat-M1 (4G) with 2G fallback cellular coverage provides communication globally
- Lithium-ion battery (IATA Dangerous Goods label required if > 2 devices per consignment)
- Arrives fully charged with simple push-button start for easy deployment
- Flexible configurations optimized for battery efficiency and expanded trip lengths; for shorter trips see TempTale® GEO Ultra—alkaline powered products
- Up to six software alarm configurations, using any combination of alarm types: High/Low temperature limits; Single or Cumulative
- Each individual device is 3-point NIST® calibrated, providing a Certificate of Calibration
- Secondary download via wireless NFC TempTale Mobile App supports iOS and Android

Sensitech's sustainable single use model is simple and easy. Sensitech's Take-back Program encourages recycling and restoration by returning devices to Sensitech. Sensitech provides on-demand ordering, eliminating the need for customers to be constrained to their pool of device inventory.

# TempTale® GEO Ultra

The SensiWatch® Platform provides end-to-end visibility and alerts from the cloud. Take advantage of real-time shipment data and notifications such as:

- Delays and rerouting
- Proximity of arrival
- Trailer door or container opened
- Early warnings that temperature is trending in the wrong direction

Automatic upload of time and temperature records to ColdStream® Select provides full traceability and system-of-record for quality to speed product release. Solution dashboards, analytics and mobile app help manage to KPIs and drive continuous supply chain improvements.

TempTale® GEO Ultra Extended Specifications	
<b>Monitor Recording Option</b>	Sustainable Single Use Only; Sensitech manages restoration requirements
<b>Certified Modes of Transport</b>	Air, Road, Rail, Ocean
<b>Sensor Types</b>	Temperature, light
<b>Temperature Range for Storage</b>	-30°C to +55°C
<b>Temperature Measurement Range</b>	-30°C to +55°C (For colder temperatures see our probed -95°C products)
<b>Temperature Accuracy Range</b>	±0.5°C from -30°C to +45°C ±1.0°C from +45°C to +55°C
<b>Software-based Alarms</b>	<ul style="list-style-type: none"> <li>• Software up to 6 multi-alarms → alarm is triggered when temperature exceeds set limits</li> <li>• Single-Event (Continuous) or Cumulative</li> </ul>
<b>Temperature Accuracy Certification</b>	3-point NIST® Traceable Certificate of Calibration
<b>Temperature Sensor Sample Interval</b>	Programmable 15 minutes to 2 hours
<b>Temperature Measurement Responsiveness</b>	Meets the requirements of <USP> 1118 and EN12830
<b>Light Sensor</b>	0-100%
<b>Cellular</b>	LTE Cat-M1 (4G) \ 2G; Cellular triangulation
<b>Memory</b>	5,000 data points per sensor
<b>Battery Type</b>	Lithium (non-replaceable)
<b>Operating Life</b>	120 days; Configurable based on reporting interval (For shorter life, please see our TempTale GEO Ultra products) <ul style="list-style-type: none"> <li>• Operating 7 days (15 minute reporting interval)</li> <li>• Operating 17 days (30 minute reporting interval)</li> <li>• Operating 30 days (1 hour reporting interval)</li> <li>• Operating 120 days (2 hour reporting interval)</li> </ul>
<b>Dimensions and Weight</b>	121.5mm x 115.5mm x 25.5mm; 241 grams
<b>Environmental Rating</b>	IP64
<b>Regulatory Certifications</b>	FCC; CE; NOM; Anatel; RoHS; WEEE; RTCA/DO-160
<b>Display Indicators</b>	LED lights indicate Start, Stop, Status
<b>Secondary Download</b>	Near Field Communication with TempTale® Mobile App (iOS and Android)
<b>Software</b>	SensiWatch® Platform; Email or SMS Notifications; ColdStream® Select 2.1+; TempTale® Mobile App
<b>Cold Chain PDF Report</b>	Software generated PDF report
<b>Minimum System Requirements</b>	Browsers: Chrome, Internet Explorer 11+ (Win 7+), Microsoft Edge, Firefox, Safari (OSX10.12+, iOS 13+), and Android 7+; Adobe® Reader 9.0 or higher

Sensitech has performed all necessary testing and can provide documentation supporting our compliance at your request.

Sensitech Inc. is a global leader in delivering supply chain visibility solutions. Our innovative monitoring products and services help to maintain the quality, integrity and security of our customers' valuable products at every step in their journey, all around the world. For 30 years, leading companies in the food, pharmaceutical, industrial, consumer goods and other industries have relied on Sensitech to help protect their products—and their bottom lines.
