

## Product Notification CSB #112

To: Sensitech Customers  
From: Client Services  
Date: 1 July 2016  
Re: RoHS2 Update – Marking requirements for product produced, sold or imported within the territory of China

---

### **Reason for Notification**

The Chinese Ministry of Industry and Information Technology published the “Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products”, also known as China RoHS2, which goes into effect on **1 July 2016**.

All electrical & electronic products (EEP) with working voltages < 1500 DC/1000 AC that are produced, sold, or imported within the territory of China are required to include an appropriate marking. Sensitech will comply with this ruling by placing a **green label indicating that our products do not contain restricted substance content**.

The following marking will appear on all Sensitech products effective immediately. If you have Sensitech stock without the below marking that is bound for China you are welcome to contact us for assistance.

### **Customer Support**
